Available at all locations. Wouldn’t you like to get one?

**Prices Do Not Include GST.**
NUTRITIONAL INFORMATION AVAILABLE. PLEASE ASK.
Why name a Burrito Restaurant STEAMROLLERS?

because we steam ’em and roll ’em®

Steaming intensifies the flavours of food, and retains more nutrients than any other cooking method. This is especially true of vegetables, where the nutrients are not washed away in the cooking liquid. Steaming also keeps our food extraordinarily moist and tender, so we don’t need to add any fats, oils, preservatives, artificial flavours, colours, or sweeteners. Nothing is processed, irradiated, dehydrated, or reconstituted. Real food, Real fast.

STEAMROLLERS TASTY TIPS

Order any Steamroller and float it in our famous homemade mole or tomatillo sauces. For those who like it wet!

Every Steamroller is made to order, so let us know what you really, really want…

EATING RIGHT is one of the most important components of good living.

We need you to know that at Steamrollers, we cook all our food with steam – no deep frying, no grease transfer from grills or griddles.

Enjoying a Steamroller is the right decision because we make our food fresh daily from natural ingredients.

No preservatives. Nothing processed.

FRESH, FAST AND FRIENDLY!

THE EVOLUTION OF FOOD:

| 2004 | choice of flour, spinach, or whole wheat tortilla | Steamed Food |
| 1999 | ‘brown’ bread | Processed Food |
| 1950 | white bread | Greasy Food |

FRESH, FAST & FRIENDLY!
